Bankruptcy and Reorganization in the Digital Business Era, The arrangement of bankruptcy, which is a critical issue for the debtors whose financial structure has deteriorated, protects the debtors from bankruptcy and enables the creditors to collect their receivables, albeit partially. Although the concordat is intended to protect bona fide debtors and creditors, it can be said that payments not made during the concordat deadlines put the creditors in financial distress and harm the economy at the macro level. In this context, it is necessary to examine the subject in depth to prevent abuse of concordat requests and to obtain better results both legally and financially. Bankruptcy and Reorganization in the Digital Business Era examines the basic structure of the arrangement of bankruptcy within various countries and the evaluation of the financial results of the enterprises that have declared the arrangement of bankruptcy. Covering key topics such as economics, financial distress, risk management, and banking, this premier reference source is ideal for business owners, managers, industry professionals, researchers, scholars, academicians, practitioners, instructors, and students.
