A straightforward, reassuring book aimed at children awaiting the arrival of a new baby in the family...The charming watercolor illustrations show all kinds of families caring for and getting to know their newcomers. Though many quality books on this subject are available, Danzig's offering will bring comfort to expectant parents and siblings alike. - School Library Journal

With kid-friendly humor and honesty, BABIES DON'T EAT PIZZA covers waiting for baby and life with baby from birth through toddlerhood. Multicultural families; how babies are born, grow and behave; adoption, premature and special needs babies; breast and bottle feeding, twins, helping and playing with babies, older children's feelings, and a parents' tips page are included. Vetted by teachers, nurse educators, physicians, librarians, and parents, the book speaks to the real questions, perceptions and concerns that the author has heard from over 2,500 children about their baby siblings.

Mom's Choice Award Gold Recipient

California Readers 2010 California Collection - Elementary Division

Featured as a "Parents' Press Pick"- "What do babies do? They sleep, they nurse, they have wacky hair-and so did you, Dianne Danzig explains in this charming, kid-friendly book for ages 3-8. Our resident sibling (Celia, age 3, big sister to Reuben, age 6 months) gave it two thumbs up. So do we. Practical tips for parents too." - Dixie Jordan, Editor/Publisher, Parents Press (Berkeley, CA)Our goals were to use honesty and fun to create one complete book to answer kids' questions and concerns about babies joining their families, and to assure children that they are valued, no matter how big their families may be. BABIES DON'T EAT PIZZA is meant to be read over time - as a friendly guide alongside children experiencing new babies in their families.
