Book Five of The Law of One is comprised of the 56 fragments of personal material that were originally omitted from the first four books of this series. Both Jim, the scribe, and Carla, the instrument for the Ra contact, have added their comments to these fragments to give the reader an idea of what it was like to be part of this contact and to show how every person's experience can be used for personal growth and service to others. A wide variety of topics is covered, from Eisenhower's meeting with extraterrestrials in 1954 to UFO/government conspiracies, Wanderers, sexual energy transfers, anger, balancing, Aleister Crowley, the Tunguska crater in Russia, pre-incarnative choices, psychic greetings, alternate and orthodox healing modalities, the ball lightning phenomenon, and the many facets of the spiritual journey in general.

Carla L. Rueckert (McCarty) was born in 1943 in Lake Forest, Illinois. She completed undergraduate studies in English Literature at the University of Louisville in 1966 and master's degree studies in Library Service in 1971. She served as librarian and bibliographer to college and school libraries for six years. She was a meditator with the group Don started in early 1962, and became partners with Don in L/L Research in 1968. In 1970, she turned full-time to assisting Don with his research. She read and abstracted books and periodicals, and did correspondence and writing for Don. In 1974, she began channeling. She continues these activities and considers herself to be working for Don still today! In 1987, she married Jim McCarty, who reports the same grateful feeling about working still for Don. She enjoys corresponding with a wide variety of wanderers, readers and spiritual seekers of all kinds, as well as reading romances, gardening, cooking and writing. She continues her channeling efforts with the non-trance Sunday meditation meetings. Her librarian interests continue, on behalf of L/L Research. She has been collecting books, tapes and other material in the areas of metaphysical and UFO research since 1970, and is proud of the L/L collection and archives. She lives with seven cats and Jim in Louisville, Kentucky.

James McCarty was born in 1947 in Kearney, Nebraska. After receiving two undergraduate degrees from the University of Nebraska and a master's degree in Early Childhood Education from the University of Florida, Jim moved to a piece of wilderness in Marion County, Kentucky, to build his own log cabin in the woods and to develop a self-sufficient lifestyle. Self-sufficient, he was! For the next six years, he was in almost complete retreat. He founded the Rock Creek Research and Development Laboratories in 1977 to further his teaching efforts there, but after experimenting, decided that he preferred the methods and directions he had found in studying with L/L Research in 1978 and 1979. In 1980, he joined his research with Don's and Carla's and the legal entity that we are now comes from this joining of Jim's non-profit charity, The Rock Creek Research and Development Laboratories, with L/L Research in 1982. We use Rock Creek as our legal name, and do business as L/L Research. Jim and Carla were married in 1987. Jim does L/L Research's business, has a wide L/L correspondence and creates wonderful gardens and stonework. He enjoys history, beauty, nature, dance and silence. With Carla, he participates in L/L's channeling.
