Class is in session, and the subject is physics. Your teacher? Why, he's the smartest cat in the galaxy!

In this brilliant follow up to Professor Astro Cat's *Frontiers of Space*, our trusty feline returns to take you on a journey through the incredible world of physics. Learn about energy, power and the building blocks of you, me and the universe in this all new *ATOMIC ADVENTURE!*

Physics is a very important part of our everyday lives! Just go for a walk through the park and you'll see for yourself. From the wind that rustles the trees, to the sun that keeps us warm, to the car that drives us around and the food that gives us energy to play, physics is all around us, all the time!

Physics is a very important part of our everyday lives! Just go for a walk through the park and you'll see for yourself. From the wind that rustles the trees, to the sun that keeps us warm, to the car that drives us around and the food that gives us energy to play, physics is all around us, all the time!

Dr. Dominic Walliman received a PhD in quantum device physics from Birmingham University in 2010 where he spent several years teaching physics to undergraduates and previously obtained a physics BSc and an MSc in computer science. He has also spread the joys of physics to the wider world, taking part in a series of talks in schools and demonstrations at festivals as well as tutoring A-level physics students.

Ben Newman is an award-winning illustrator (Royal Television Society Award for Best Branding and Opening Credits Sequence). Previous clients include Penguin, the BBC, the Edinburgh Fringe Festival, and the New York Times, amongst many others. He is a long-standing contributor to Nobrow and is the author of two books, *The Bento Bestiary* and *Ouroboros*, under the same imprint.

Other Books

Thinking of Questions, This is not a conventional book. It is designed to stimulate and challenge all people who are curious to find out about the world they inhabit and their place within it. It does this by suggesting questions and lines of questioning on a wide range of topics. The book does not provide answers or model arguments but prompts people to create their own questions and a reading log or journal. To this end, almost all questions have a list of books or articles to provide a starter for stimulating further reading. Once you start, you will be hooked! Never stop questioning.

“? ? ? ? ? . You will no doubt be provoked to question almost everything he says in his attempted answers, but that is the point of starting ... Warren Berger (*A More Beautiful Question: The Power of Inquiry to Spark Breakthrough Ideas* , Bloomsbury, ...”
