An Amazon Best Book of the Month, June 2014:

Two men, both attempting to remain invisible to the world around them, are unknowingly at odds. "Pilgrim" is an American intelligence operative who, despite wanting to retire to a "normal" life, stumbles upon the biggest case of his career. His story starts with an unrelated murder in a seedy New York hotel room and quickly escalates to a matter of national security. The events unfold in slow motion, and we see the past and present from both Pilgrim's perspective and that of his unknown adversary, a man of single-minded devotion and incredible danger. In his debut novel, Hollywood screenwriter and producer Terry Hayes has concocted a riveting 600-page read that is part police procedural, part international spy thriller, and all ready for adaptation. --Robin A. Rothman

Terry Hayes is the New York Times bestselling author of I Am Pilgrim and the award-winning writer and producer of numerous movies. His credits include Payback, Road Warrior, and Dead Calm (featuring Nicole Kidman). He lives in Switzerland with his wife, Kristen, and their four children.

Need to Know, How should a Christian think? If a serious Christian wants to think seriously about a serious subject--from considering how to vote in the next election to choosing a career; from deciding among scientific theories to selecting a mate; from weighing competing marketing proposals to discerning the best fitness plan--what does he or she do? This basic question is at the heart of a complex discourse: epistemology. A bold new statement of Christian epistemology, Need to Know presents a comprehensive, coherent, and clear model of responsible Christian thinking. Grounded in the best of the Christian

theological tradition while being attentive to a surprising range of thinkers in the history of philosophy, natural science, social science, and culture, the book offers a scheme for drawing together experience, tradition, scholarship, art, and the Bible into a practical yet theoretically profound system of thinking about thinking. John Stackhouse's fundamental idea is as simple as it is startling: Since God calls human beings to do certain things in the world, God can be relied upon to supply the knowledge necessary for human beings to do those things. The classic Christian concept of vocation, then, supplies both the impetus and the assurance that faithful Christians can trust God to guide their thinking--on a "need to know" basis.
