"One of the best books around for demystifying the deliberately mysterious arts of advertising."--Salon

"Fascinating, entertaining and thought-stimulating."--The New York Times Book Review

"A brisk, authoritative and frightening report on how manufacturers, fundraisers and politicians are attempting to turn the American mind into a kind of catatonic dough that will buy, give or vote at their command"--The New Yorker

Originally published in 1957 and now back in print to celebrate its fiftieth anniversary, *The Hidden Persuaders* is Vance Packard's pioneering and prescient work revealing how advertisers use psychological methods to tap into our unconscious desires in order to "persuade" us to buy the products they are selling.

A classic examination of how our thoughts and feelings are manipulated by business, media and politicians, *The Hidden Persuaders* was the first book to expose the hidden world of "motivation research," the psychological technique that advertisers use to probe our minds in order to control our actions as consumers. Through analysis of products, political campaigns and television programs of the 1950s, Packard shows how the insidious manipulation practices that have come to dominate today's corporate-driven world began. Featuring an introduction by Mark Crispin Miller, *The Hidden Persuaders* has sold over one million copies, and forever changed the way we look at the world of advertising.

Vance Packard (1914-1996) was an American journalist, social critic, and best-selling author. Among his other books were *The Status Seekers*, which described American social stratification and behavior, *The Waste Makers*, which criticizes planned obsolescence, and *The Naked Society*, about the threats to privacy posed by new technologies.

Brainwashed. "Black people are not dark-skinned white people," says advertising visionary Tom Burrell. In fact, they are a lot more. They are survivors of the Middle Passage and centuries of humiliation and deprivation, who have excelled against the odds, constantly making a way out of "no way!" At this point in history, the idea of black inferiority should have had a "Going-Out-of-Business Sale." After all, Barack Obama has reached the Promised Land. Yet, as *Brainwashed: Erasing the Myth of Black Inferiority* testifies, too much of black America is still wandering in the wilderness. In this powerful examination of "the greatest propaganda campaign of all time"--the masterful marketing of black inferiority

Burrell poses 10 provocative questions that will make black people look in the mirror and ask why, nearly 150 years after the Emancipation Proclamation, so many blacks still think like slaves. Brainwashed is not a reprimand; it is a call to deprogram ourselves of self-defeating attitudes and actions. Racism is not the issue; how we respond to racism is the issue. We must undo negative brainwashing and claim a new state of race-based self-esteem and self-actualization. Provocative and powerful, Brainwashed dares to expose the wounds so that we, at last, can heal.
