"Jim Marrs can't be ignored. Few in this country shout about The Truth louder than he."

-Dallas Observer

In *The Trillion-Dollar Conspiracy*, Jim Marrs, the New York Times bestselling author of *Rule by Secrecy* and *The Rise of The Fourth Reich*, offers a terrifying proposition: that the current economic collapse has been engineered by a tyrannous government and multinational corporations determined to enslave us. Read *The Trillion-Dollar Conspiracy* and find out how the New World Order, man-made diseases, and zombie banks are destroying America.

<blockquote>

America's economy is in shambles. . . .

Its citizens are terrified and dissatisfied. . . .

Could it all have been planned by a secret elite one hundred years ago?

</blockquote>

The New World Order. Hitler referred to it in his diaries. President George H. W. Bush foretold of it in his speeches. Formed by a secretive global elite, the group seeking this new order has taken hold of the nation-and perhaps the world. Its influence pervades every reach of American society, from the products we buy at the grocery store to the topics of evening news programs.

But could it also be true that the New World Order caused one of the greatest financial catastrophes of our time?

For years, bestselling author and legendary conspiracy researcher Jim Marrs has exposed information that the mainstream corporate media has refused to report. Now, with a crisis upon us, Marrs has yet again unearthed the lies to expose the insidious alliances that make up a secret world.

Consider this: In 1910, a handful of the world's most powerful government and corporate men gathered on Jekyll Island to discuss matters at a private hunting lodge. The agenda? First, the overthrow of the sitting American president; second, the creation of a central bank, one headed by a succession of elitists who would unconstitutionally control America's money and its economy for decades. . . .

Flash forward one hundred years. Never before have the American people been so unhappy. Apathy and paralysis are the nation's guiding principles. Public education has repeatedly failed. More and more Americans rely on overpriced pills for remedies to fabricated illnesses. The average American household spends eight hours a day in front of the television, ruled by the vague fears of terrorist attacks and economic collapse. Control of the mass media has devolved to a mere five multinational corporations.

Throughout *The Trillion-Dollar Conspiracy*, Marris investigates the erosion of America's civil liberties and the nation's transformation into a police state: Will the government use a microchip to monitor the populace? How does the Patriot Act relate to Nazi legislation? Have Americans today become merely a poor imitation of the robust citizenry of our nation's past?

Jim Marris responds with a resounding call of "Yes, we have!" He also raises powerful questions about so many other things:

- >> Was the financial bailout of 2008 nothing but one group of global elites passing money to another?
- >> Could the swine flu epidemic have been corporately manufactured?
- >> Is Big Pharm behind a lie that claims bipolar disorder is a real illness?
- >> Has a Nazi bioweapon caused recent maladies such as fibromyalgia and chronic fatigue syndrome?
- >> Why did the government suppress a device that can apparently cure cancer?

In the explosive *The Trillion-Dollar Conspiracy*, Marris explores the back rooms and shadowy deals of our nation's past to craft a frightening history that no one else is brave enough to tell.

Jim Marris is a celebrated journalist and the author of *Our Occulted History*, *The Trillion-Dollar Conspiracy*, *The Rise of the Fourth Reich*, *Rule by Secrecy*, *Alien Agenda*, and *Crossfire: The Plot That Killed Kennedy*. He lives in Texas.
