One of the most important pioneers in the area of child development, Maria Montessori opened the first Children's House in Rome in 1907. Today, there is a network of Montessori schools around the world. This text makes the acclaimed methods used in those schools available to all parents who wish to give their child the best possible start on the road to reading and writing. There are sections on how to create an environment which gives the best chance for language to flourish, the first steps towards reading and writing, and learning to write the letters. This book contains age-graded games and activities to aid learning, and has a resources section designed to be appropriate for different geographical regions and/or languages. It includes a reading list, resources list and suggestion for scripts.

In *Montessori Read & Write*, Lynne Lawrence, a leading Montessori practitioner, shows you how you can teach your children to read and write using the famous Montessori system. The book is packed with ideas and age-specific activities and games that make learning easy and fun. It puts children on the straightest possible road to literacy, from those first steps in recognizing letters, sounds, and shapes through vocabulary-building and spelling competence to full reading fluency and creative writing skills.

As a valuable bonus, *Montessori Read & Write* includes a list of special books that you and your child can enjoy reading together.

Other Books

Learn with Teacher Kim. This Montessori Reading is a series of books that you can use as your guide on how to teach your little ones to read, the Montessori way. Montessori teaches the sound of each letter in the Alphabet and not the name of the letters. Complete and follow this series and get your child reading in no time! Enjoy and have fun learning!
