Behind your familiar astrological chart lies another chart entirely, one whose existence you may never have suspected. It carries your treasures and your wounds. Where the astrologer's predictions and the realities of your life might not in all honesty have lined up, this chart-behind-the-chart will help you see why. This second, hidden chart tells the tale of who you were in a prior lifetime. It speaks of what wounded you then and what work you left undone. It reveals the old ghosts that still haunt you today and it describes what happens when you let them grab the steering wheel of your life.

This chart explains the reasons you have the chart you have today and it clarifies how you can get on with your evolutionary journey. In *Yesterday's Sky*, Steven Forrest completes the picture he began painting in his best seller, *The Inner Sky*, over twenty-five years ago.

Steven Forrest is the author of several astrological bestsellers, including *THE INNER SKY*, *THE CHANGING SKY*, *THE BOOK OF PLUTO*, *THE NIGHT SPEAKS*, and the new astrology classic *YESTERDAY'S SKY*.

Steven's work has been translated into a dozen languages, most recently Chinese and Italian. He travels worldwide to speak and teach his brand of choice-centered "evolutionary" astrology, which integrates free will, grounded humanistic psychology and ancient metaphysics.

Along with his busy private practice, he maintains active astrological apprenticeship programs in California, Australia, North Carolina, and Switzerland. He is a founding member of the Ethics Committee of the International Society for Astrological Research (ISAR).

The musician Sting calls Steven's work "as intelligent and cogent as it is poetic." *DELL HOROSCOPE* describes him as "not only a premier astrologer, but also a wise man." Callie Khouri, who wrote the screenplay for the mega-hit film *Thelma and Louise*, praises his "humor, insight, poetry, and astute, articulate observations of human nature." *O: THE OPRAH MAGAZINE* describes his philosophy this way: "Forrest's approach...stops the blame game in its tracks...we're warriors fulfilling our turbulent evolutionary paths." Actor Robert Downey Jr. says, "I marvel at the accuracy of Steve's readings. He insists that nothing is so grave as to be beyond repair, and correspondingly that there is no rainbow that won't be evaporated by poor judgment in the now. I can't recommend him highly enough." And Rob Breznsky, in his popular "Real Astrology" column, simply calls him "the most brilliant astrologer alive." "Over the past two or three years, many astrology books have been published about the relevance of the Lunar Nodes, but here we have the master of this technique as he presents the philosophical framework, the cookbook reference sections, and the clear interpretive methodology . . . Mastering the material in *Yesterday's Sky* will make anyone a better astrologer." - Dell *HOROSCOPE*
