New discoveries of the amazing teachings and ministry of Abraham at the Great Pyramid in Egypt. Ancient traditions of the pyramid covered in extinct language. A secret body of obscure scriptures in the Bible that refer to the Great Pyramid. Ancient knowledge that the Great Pyramid complex was long ago beneath the Mediterranean Sea. Ancient Egyptian accounts of the discovery of the Great Pyramid, with Egyptian based memories of Abraham visiting the Giza site. Secret traditions regarding the Sphinx and why it appears older than the pyramids - but is not. An ancient body of teachings holding that Enoch was the architect of the Giza monuments before the Great Flood. Historical records showing that the Great Pyramid was built to preserve knowledge and survive through a planetary cataclysm.

Living in this wonderfully, complex, technological information age of the 21st century the vast majority of mankind is totally unaware of the stunning technolithic engineering, geopolymer sciences and laser-precision lathing that was employed in the construction of a single pyramid in a land only a thousand years later called Egypt. Lost Scriptures of Giza is packed with information you will find in NO OTHER BOOKS on the mysteries of the Great Pyramid. But even this work is but a pale introduction to this monument's true worth. My next book on the Great Pyramid will visually demonstrate in myraids of illustrations the PURPOSE of the structure's internal arrangements...and it is my guarantee that not only will you come to agree, but that NOT ONE SINGLE researcher, author, engineer, scientist or mystic has ever come close to this discovery. The majority of my life was spent seeing through the eyes of a criminal, and it is for this reason that I was able to unravel the frauds, deceptions, outright lies of the establishment historians and to analyze the structural data of the monument as set forth in scientific studies. NOTHING in print on the Great Pyramid comes close. Many authors have isolated interesting particulars but none have put together the whole. You don't have long to wait. -Jason M. Breshears I am repeatedly amazed by the garbage published today on the topics of ancient mysteries and Early Bronze Age antiquities. So many books and almost every one of them produces more questions than answers. Be careful what you read and NEVER trust books that cite internet sources in their bibliographies. All of my own works maintain hundreds of bibliographic citations from actual books, studies, reports and articles. It is unfortunate that the most popular books are those that put out the most inaccurate data. As an anti-Establishment author I am undaunted and will continue releasing my research on Amazon, through Book Tree of San Diego and for free on nephilimarchives.com Jason M. Breshears is a researcher of the occult, chronology and antiquities. Eight of his published works are nonfiction with extensive bibliographies concerning fascinating information on ancient civilizations, cataclysms and the modern establishment's attempts to suppress these discoveries from the public today. Five of these works are published by Book Tree in San Diego.

The Complete Dead Sea Scrolls in English. The discovery of the Dead Sea Scrolls by a Bedouin goatherd in 1947 transformed our understanding of the Hebrew bible, early Judaism, and the origins of Christianity. Nothing in the modern study of the ancient Mideast can match the fifty-year saga of these documents hidden by a Jewish sect existing before and during the time of Jesus. After years of academic debate and maneuvering as tense as any espionage novel, the Dead Sea Scrolls and fragments are at last available in their entirety, in an established standard English version. The Complete Dead Sea Scrolls in English -- the crowning achievement of esteemed biblical scholar Geza Vermes -- provides not only reliable, direct access to these intriguing documents but a wealth of scholarly information and an outline of the history surrounding them. Here, for scholars, students, and the fascinated general reader, are the texts which endure as the nonbiblical center of Judeo-Christianity and the foundation of Western literary traditions. .
