A strong and disturbing account of the Vichy period, demonstrating how in the interests of stability, French national feeling favored collaboration with the German-controlled regime. A disturbing account of the Vichy period, demonstrating how in the interests of stability, French national feeling favored collaboration with the German-controlled regime. ROBERT O. PAXTON'S CLASSIC STUDY of the aftermath of France's sudden collapse under Nazi invasion utilizes captured German archives and other contemporary materials to construct a strong and disturbing account of the Vichy period in France. With a new introduction and updated bibliography, VICHY FRANCE demonstrates that the collaborationist government of Marshal Petain did far more than merely react to German pressures. The Vichy leaders actively pursued their own double agenda -- internally, the authoritarian and racist "national revolution", and, externally, an attempt to persuade Hitler to accept this new France as a partner in his new Europe.

Other Books

International Politics and Inner Worlds. This book takes radical aim at the conventional conduct of international relations analysis. It reexamines the role of ideas, the usefulness of psychoanalysis, the rage for and at rational choice, the influence of the public on foreign policy, counterinsurgency evangelism, and development orthodoxies at the national and genetic levels. Drawing a bead on conceptual blind spots prevalent both inside and outside the academy, the book urges scholars to reflect on how inner worlds shape the actions of their subjects--and their own research analyses, as well.
