*The Human Odyssey, Departure from the Garden* represents the maiden flight of humanity from its earliest beginning with ancestors from the stars. The ancestor races evolved from the same universal code from which the oldest human species grew, many of whom have now left human evolution behind them to climb to even greater states within the universal code. The most ancient emblem on Earth observed in modern UFO contact guides the search for Native America's ancestors, those who returned to Mexico in 1991 in the most extensive UFO activity in modern history. Traces of Native America's ancestors, the ancient astronauts, have often been dismissed as too impossibly ancient to believe. And it is the factor of what can be perceived as reality or truth that is followed in this search for humanity through the manifestation of mind and the shamanic perspective in North America's oldest pyramids. Recent scientific discovery of super continents and new excavations at Gobekli Tepe in Turkey are examined in light of traditional lore from the remote corners of the Earth. The search for The People Of Life, those who opened the tree of life to repopulate Native America, leads through Earth's oldest cultures -- Egypt, Greece, India, Tibet and Mu, the motherland.
